1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND Office of Planning

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

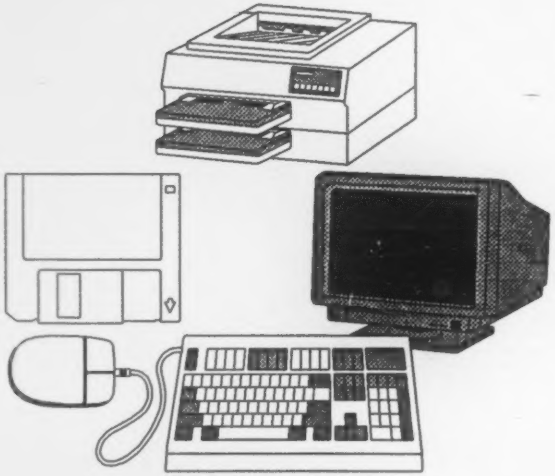
1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A) CALVERT COUNTY



PREPARED BY MARYLAND OFFICE OF PLANNING
PLANNING DATA SERVICES, MAY, 1991
$1.00

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND Office of Planning

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND Office of Planning

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND Office of Planning

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

PLANNING DATA SERVICES, MAY, 1991

$1.00

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

MARYLAND *Office of Planning*

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.

1990 POPULATION AND HOUSING CHARACTERISTICS (STF-1A)

The U.S. Bureau of the Census released the first summary tape file (STF-1A) for Maryland on May 14. This release includes the detailed age, race and sex distribution of the population as well as household status, housing tenure, vacancy and value/rent information. The tape file includes counts for all geographic levels down to the block group.

The Maryland Office of Planning has created this eight-page profile report. It includes all of the census population and housing characteristics available on STF-1A.

The population counts shown in the profile are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The Maryland State Data Center will produce printed profiles for states, counties and places. The profiles can also be generated for minor civil divisions and census tract/block numbering areas. Diskette files with selected characteristics from the STF-1A tape file will also be available. For more information on the STF-1A profiles and diskette data products contact the Maryland State Data Center at (301) 225-4450.
